

Laboratory test - Monday 15.05.2017

The test is based solely on exercises done in the laboratory classes (not in homeworks, not in courses).

The test will consists of **two exercises**, and it will last **1 hour**

Exercises to revise:

I. Entropy (Lab week 2)

- computation of entropy, efficiency, redundancy
- Extended sources (extension of order 2, 3)
- **NOT sources with memory! (Lab Week 3)**

II. Channels (Lab Weeks 4, 5, 6, 7)

- Nothing

III. Source coding (Lab Week 8, 9)

- All exercises

IV. Error control (Lab Week 12 - this week)

- All exercises
